

Adoption Questionnaire

We ask that all family members attend the meet and greet to ensure that the animal is going to a suitable home with all individuals agreeable to adding another member to the family. We may also request that all other animals in the home meet with the potential adoptive animal to ensure a good match (this is particularly important when adopting a dog or puppy when other dogs are already in the home.)

We'd like to get to know you, please tell us a bit about you, your current pets and your home environment:

Would you like to tell us anything else in respect to your application?

The majority of animals currently in the care of B.A.R.S have spent time in a foster care situation. We can not guarantee that once the animal is in your care behaviour changes will not occur. All information supplied on the animal is through observation only, we can not always guarantee the breed, age, and behaviour or health as things can change once the animal is in a consistent/stable environment. That being said we will not knowingly adopt out a sick animal or one with severe behavioural problems.

We thank you for taking the time to fill out this application. A member of the B.A.R.S team will review your application and contact you within 48 hours. If a meet and greet is necessary to introduce all animals and ensure all family members are present this can be arranged during this time. We strive to find loving forever homes for each one of the animals in our care and we appreciate your patience during our screening process.
